- Emotional intelligence

### Projects

#### • Next Meal Web & Mobile

01/01/2022 | 01/11/2022

Web application for restaurants to showcase their work and manage their establishment through a reservation system. I worked on this project as a **full-stack developer** and the main technologies I used were **ReactJS** and **Laravel**.

#### • QRcode Scanner

01/08/2022 | 01/11/2022

A simple mobile application and web service to generate and scan QRcode values to be used as entry control for Etec's future events. I worked on this project as a **back-end developer** and the main technologie I used was
